-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The amendment filed 08/27/2001 and 10/04/2004 proposes amendments to the reissue application that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

A shortened statutory period for reply to this letter is set to expire ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this letter.

Note: Each time an applicant submits an amendment the amendment is being made with respect to the issued patent. Therefore, each time a new claim to the original patent is presented the new claim must be underlined and when those claims are amended in further amendments the entire claims should be underlined. See, 37 CFR 1.173(b).

Reissue Application Supplemental Declaration

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 10-23 and 59-105 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

Art Unit: 2684

Note: Every time there is a departure from the original patent, this departure is an error.

As a result, a supplemental declaration is required to cover all errors not covered by the prior declaration. See 37 CFR 1.175.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 10, 14, 18, 19, 20, and 23, are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 11 of U.S. Patent No. 5,627,879. Although the conflicting claims are not identical, they are not patentably distinct from each other because the identified claim of the patent comprises the subject matter, contained in claims of the application, however the claims of the patent contains additional subject matter omitted in the claims of the application. Nevertheless, omission of an element and its function in combination is an obvious expedient if the remaining elements perform the same functions as before. *In re KARLSON* (CCPA) 136 USPQ 184 (1963). Therefore, the claims of the application are obvious over the claims of the patent. See the subject matter correspondence table below.

Art Unit: 2684

5. Claims 59-105 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 12 of U.S. Patent No. 5,627,879. Although the conflicting claims are not identical, they are not patentably distinct from each other because the identified claim of the patent comprises the subject matter, contained in claims of the application, however the claims of the patent contains additional subject matter omitted in the claims of the application. Nevertheless, omission of an element and its function in combination is an obvious expedient if the remaining elements perform the same functions as before. In re KARLSON (CCPA) 136 USPQ 184 (1963). Therefore, the claims of the application are obvious over the claims of the patent. See the subject matter correspondence table below.

Allowable Subject Matter

6. Claim 1-9, are allowed.
